(g) A graduate license is only valid for a maximum of 12 consecutive months, but may be renewed by the Board to permit additional training.

(h) For a graduate license to be renewed, the Board has to receive, prior to the expiration of the previously issued license, the required renewal fee—see § 16.13 (relating to licensure, certification, examination and registration fees)—and a completed renewal form. § 17.6. Temporary license.

(a) A temporary license will be issued to an applicant who holds the equivalent of a license without restriction granted by the licensing authority of another state, territory or possession of the United States, or another country, to permit one of the following:

(f) A temporary license will be issued to a doctor who is participating in Project U.S.A. to serve as a short-term (2—4 weeks) substitute for a doctor of medicine employed by the Federal government in a National Health Service Corps Clinic. § 17.11. Examination information for license without restriction.

(a) *FLEX*. This is the examination offered by the Board for a license without restriction. The last regular administration of FLEX I and FLEX II was Decem-

ber of 1993. The examination is comprised of two components—FLEX I and FLEX II. Both components are given every December and June. FLEX I may be taken after graduating from a medical college but, beginning July 1, 1986, shall be passed prior to commencing a second-year level of graduate medical training if the medical doctor has not already passed Parts I and II of the National Boards or a licensing examination acceptable to the Board under § 17.1(a)(1)(iii), (viii) and (ix) (relating to license without restriction), or secured a license without restriction in this Commonwealth or an equivalent license issued by a state, territory or possession of the United States or the Dominion of Canada. FLEX II may be taken after graduating from a medical college but, for a medical doctor to begin a third-year level of graduate medical training he shall first pass FLEX I and FLEX II or a licensing examination acceptable to the Board under § 17.1(a)(1)(iii), (viii) and (ix), or have secured a license without restriction in this Commonwealth or an equivalent license issued by another state, territory or possession of the United States or the Dominion of Canada. Both FLEX I and FLEX II may be taken by a student in a medical college if the student is in the last semester or a similar school term, the dean of the medical college certifies to the Board that the student's graduation is imminent and the semester or similar school term will conclude shortly after the administration of FLEX I and FLEX II. A passing score on this examination satisfies the examination requirement for a license without restriction.

(b) *Licensing examination of Federation from June 1968 through December 1984.* This examination is the forerunner of the present FLEX. A passing score on this three-part examination satisfies the examination requirement for a license without restriction. This examination is no longer offered as a licensing examination by the Board. A passing score on this examination shall have been achieved in an individual attempt, that is, a passing score cannot be achieved by combining scores received on separate parts of the examination obtained in more than one examination attempt.

(c) *National Boards.* This examination comprised of Parts I, II and III was given in most accredited medical colleges. A passing score on this examination satisfies the examination requirement for a license without restriction.

(d) *USMLE.* This examination is a uniform examination for licensure which replaces the National Boards Parts I, II and III and FLEX I and FLEX II. Each step is given twice a year. To be eligible for Step 1 or 2 of the examination, an individual shall be a medical student officially enrolled in, or a graduate of, an accredited medical school or a graduate of an unaccredited medical school. Steps 1 and 2 may be taken in any sequence. To be eligible for Step 3 of the USMLE, the individual shall have obtained a medical doctor degree or equivalent, shall have achieved a passing score on both Step 1 and Step 2 or equivalent, and shall be enrolled in a graduate medical training program. Additionally, a graduate of an unaccredited school shall be currently certified by ECFMG or shall have successfully completed a "Fifth Pathway" program. All Steps of the examination shall be completed within 7 years. A passing score on this examination satisfies the examination requirement for a license without restriction.

(e) *Examination of the Medical Council of Canada.* This is an examination offered in Canada which has been adopted as a licensing examination in most of

the provinces of Canada. A passing score on this examination, as determined by the Medical Council of Canada, satisfies the examination requirement for a license without restriction if the examination was taken in English in or after May 1970.

(f) *State Board Examination.* This is an examination for a license to practice medicine and surgery without restriction, other than USMLE, FLEX or the forerunner of FLEX, which is used by a licensing authority in another state, territory or possession of the United States. A passing score on this examination, as determined by the licensing authority in the other jurisdiction, satisfies the examination requirement for a license without restriction if the examination was taken in English prior to December 1973.

§ 17.12. Failure on FLEX I or FLEX II.

(a) *Retaking examination.* An individual who fails either FLEX I or FLEX II is permitted to retake that component of the FLEX in this Commonwealth after the expiration of 6 months and within 2 years from the prior examination date.

(b) *Repeating year of graduate medical training.* If an individual fails to secure a passing grade on FLEX I in a second attempt, the individual shall repeat a year of graduate medical training at a first-year level before retaking FLEX I in this Commonwealth. If the individual fails to secure a passing grade on FLEX II in a second attempt, the individual shall repeat a year of graduate medical training at a first or second-year level before retaking FLEX II in this Commonwealth.

(c) *Awaiting examination results.* Effective July 1, 1986, if an individual scheduled to go into a second-year level of graduate medical training is awaiting the FLEX I score, the individual may not begin training at a second-year level until the individual has notified the Board that FLEX I has been passed, and the Board has issued the appropriate license, but may continue to train at a first-year level until that time, if the individual has renewed the first-year level license. An individual scheduled to go into a third-year level of graduate medical training who is awaiting the FLEX II score, may not begin training at a third-year level until the individual has notified the Board that FLEX II has been passed, and the Board has issued the appropriate license, but may continue to train at a first or second-year level until that time, if the individual has renewed the first or second-year level license.

A passing score on SPEX is 75 as determined by the Federation. When the Board determines that an examination is required for a medical doctor coincident to a disciplinary or corrective measure, the requirement may be satisfied by passing the SPEX.

§ 17.21. Definition.

As used in this subchapter, a graduate medical trainee is a medical school graduate with a graduate license issued by the Board for training purposes.

The provisions of this § 17.21 adopted March 6, 1964; amended May 13, 1977, effective May 14, 1977, 7 Pa.B. 1280; amended January 2, 1987, effective December 31, 1986, 17 Pa.B. 24. Immediately preceding text appears at serial page (30209).

§ 17.22. Graduate medical trainee registration.

(a) A person may not practice medicine as a part of a graduate medical education program without a valid graduate license issued by the Board. The issuance of the license demonstrates the approval of the Board for participation of the designated trainee in the graduate medical education program. The training institution, as a prerequisite for maintaining its approved status in this Commonwealth, shall provide the Board with the information on its graduate medical trainees as required by the Board.

(b) A physician working in a hospital who does not possess a valid graduate license shall be reported to the Board.

(c) Short-term trainees and physicians from out-of-State or out-of country institutions doing rotations through training facilities in this Commonwealth shall submit an application for a graduate license and submit the fee in § 16.13 (relating to licensure, certification, examination and registration fees). The training institution shall accept full responsibility for the trainee.

§ 17.23. Approval and accreditation of graduate training programs.

The Board is responsible for determining the character of instruction and the facilities possessed by each of the various medical education institutions and hospitals who carry out graduate medical education programs in this Commonwealth. The Accreditation Council for Graduate Medical Education (ACGME) of the American Medical Association possesses the facilities and staffing required to perform evaluations of the qualifications of the various programs and also the mechanism for accreditation of acceptance programs. The Board and the ACGME work cooperatively in evaluating and approving the training programs in this Commonwealth. A comity exists between the Board and the ACGME

under which all intended observations of training programs for accreditation are communicated to the Board and the Board makes all requests for accreditation or investigation of training programs to the ACGME. If an investigation of the programs of the various institutions in this Commonwealth is to be conducted, the Board will provide one of its members or appoint an individual to accompany the investigator on each occasion. An institution within this Commonwealth seeking approval of its programs by the ACGME will be informed that action taken by the accrediting agency will be related to the Board.

Notes of Decisions

Final authority regarding accreditation of medical training facilities rests with the Board and not with a private accrediting body. *McKeesport Hospital v. State Board of Medicine*, 628 A.2d 476 (Pa. Cmwlth. 1993), petition for allowance of appeal granted February 11, 1994.

§ 17.24. Hospital affiliations.

(a) Under section 2 of the act (63 P. S. § 422.2), affiliation shall require Board approval. In order to determine whether to grant approval, the Board will require the following:

(1) A list of hospital affiliations indicating with which medical colleges or other accredited health care institutions a hospital has working arrangements and whether or not the affiliation is a comprehensive one or is limited to specific departments of medicine and surgery.

(2) A general description of the implementation of the affiliation in the working relationships of the institutions involved.

(3) Copies of affiliation agreements.

(b) The Board shall be notified by the hospitals when the affiliations are discontinued.
