§ 643a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 643a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Five Card Bonus Wager is being offered utilizing a table game system, use the table game system to prevent the placement of any additional Five Card Bonus Wager. If any Five Card Bonus Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Five Card Bonus Wagers accepted by the table game system. The dealer shall then place the value chips into the table inventory container.

(2) If the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(3) If the Five Card Hand Bonus Wager is being offered, use the electronic wagering system to prevent the placement of additional Five Card Hand Bonus Wagers.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face down to each player who has placed the three required Let It Ride Poker Wagers in accordance with § 643a.7(d) (relating to wagers).

(2) One card face down to the area designated for the placement of the community cards.

(3) A second card face down to each player who has placed the three required Let It Ride Poker Wagers in accordance with § 643a.7(d).

(4) A second card face down to the area designated for the placement of the community cards, which card shall be placed to the right of the first card dealt to this area.

(5) A third card face down to each player who has placed the three required Let It Ride Poker Wagers in accordance with § 643a.7(d).

(e) After three cards have been dealt to each player and two cards have been dealt to the area designated for the placement of the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 2 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(3) Prior to dealing any cards, the dealer shall announce "no more bets" and:

(i) If the Five Card Bonus Wager is being offered utilizing a table game system, use the table game system to prevent the placement of any additional Five Card Bonus Wagers. If any Five Card Bonus Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Five Card Bonus Wagers accepted by the table game system. - (c) After three cards have been dealt to each player and two cards have been dealt to the area designated for the placement of the community cards, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.
- (d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.
- (e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.
