§ 647a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 647a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards and after all Ante and Texas Hold 'Em Bonus Wagers have been placed, the dealer shall announce "no more bets" and, if the Progressive Payout Wager or Five Card Hand Bonus Wager is being offered, use the progressive table game system or electronic wagering system to prevent the placement of additional Progressive Payout or Five Card Hand Bonus Wagers. If Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time, face down, to each player who placed an Ante Wager in accordance with § 647a.7(d)(1) (relating to wagers) and to the dealer, under a cover card, until each player who placed an Ante Wager and the dealer have two cards.

(e) After two cards have been dealt to each player and to the area designated for the placement of the dealer's hand, the dealer shall deal the five community cards in accordance with § 647a.11(c), (e) and (g) (relating to procedure for completion of each round of play). After all community cards have been dealt, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) The dealer shall announce “no more bets” and, if the Progressive Payout Wager or Five Card Hand Bonus Wager is being offered, use the progressive table game system or electronic wagering system to prevent the placement of any additional Progressive Payout Wagers. The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager in accordance with § 647a.7(d)(1) (relating to wagers) and to the dealer, under a cover card, until each player who placed an Ante Wager and the dealer have two cards.

(c) After two cards have been dealt to each player and to the area designated for the placement of the dealer’s hand, the dealer shall deal the five community cards in accordance with § 647a.11(c), (e) and (f) (relating to procedure for completion of each round of play). After all community cards have been dealt, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 647a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 647a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or Five Card Hand Bonus Wager is being offered, use the progressive table game system or electronic wagering system to prevent the placement of additional Progressive Payout Wagers. If Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of two cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed an Ante Wager in accordance with § 647a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack of two cards face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of two cards face down under a cover card to the area designated for the dealer’s cards.

(c) After each stack of two cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the remaining cards from the automated dealing shoe and, following the procedures in § 647a.9(a)(2) (relating to procedure for dealing the cards from the hand), deal from his hand the five community cards in accordance with § 647a.11(c), (e) and (f) (relating to procedure for completion of each round of play). After all five community cards have

been dealt, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe which automatically reshuffles the cards, the five community cards may be dispensed before the two cards are dispensed to each player and to the dealer. The community cards shall then be revealed in accordance with § 647a.11(c), (e) and (f).

§ 647a.11. Procedure for completion of each round of play.

(a) After the dealing procedures required under § 647a.8, § 647a.9 or § 647a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Texas Hold 'Em Bonus Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

- (2) Each player shall keep his cards in full view of the dealer at all times.
- (b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Flop Wager prior to the dealing of the Flop. The player may either fold or place a Flop Wager equal to twice the amount of the player's Ante Wager. If a player:
- (1) Places a Flop Wager, the wager shall be placed in the area designated for the Flop Wager.
 - (2) Folds, the player's Ante Wager shall be collected by the dealer and placed in the table inventory container. If the player:
 - (i) Has also placed:
 - (A) A Texas Hold 'Em Bonus Wager, the dealer shall place the cards of the player face down underneath the Texas Hold 'Em Bonus Wager pending its resolution at the conclusion of the round of play.
 - (B) A Progressive Payout Wager, the player is not eligible to receive a Progressive Payout. The player's cards shall remain face down on the table pending resolution of the Envy Bonus in accordance with subsection (i)(5).
 - (C) A Five Card Hand Bonus Wager, the dealer shall place the cards of the player face down on the table pending resolution of the Five Card Hand Bonus Wager in accordance with subsection (j).
 - (ii) Has not placed a Texas Hold 'Em Bonus Wager, Five Card Hand Bonus Wager or a Progressive Payout Wager, the dealer shall immediately collect the player's cards and place them in the discard rack provided that if another player at the table placed a Progressive Payout Wager, the player's cards shall remain on the table pending the resolution of the Progressive Payout Wager in accordance with subsection (i).
- (c) After each player has either placed a Flop Wager or folded, the dealer shall burn the next card. The dealer shall then deal the Flop face up to the designated area for the community cards.
- (d) After the Flop has been dealt, the dealer shall, beginning with the player farthest to the dealer's left who has placed a Flop Wager and moving clockwise around the table, ask each player who has placed a Flop Wager if he wishes to place a Turn Wager prior to the dealing of the Turn card. The player may either check and remain in the game or place a Turn Wager in an amount equal to the player's Ante Wager.
- (e) Once all remaining players have either placed a Turn Wager or checked, the dealer shall burn the next card. The dealer shall then deal the Turn card face up to the designated area for the community cards.
- (f) After the Flop and Turn cards have been dealt, the dealer shall, beginning with the player farthest to the dealer's left who has placed a Flop Wager and moving clockwise around the table, ask each player if he wishes to place a River

Wager prior to the dealing of the River card. The player may either check and remain in the game or place a River Wager in an amount equal to the player's Ante Wager.

(g) Once all remaining players have either placed a River Wager or checked, the dealer shall burn the next card face down. The dealer shall then deal the River card face up to the designated area for the community cards.

(h) After the five community cards have been dealt, the dealer shall remove the cover card on top of the dealer's cards and turn his two cards face up on the layout. The dealer shall then select five cards using the dealer's two cards and the five community cards to form the highest ranking five-card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right who has placed a Flop Wager and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the two cards of each player who has placed a Flop Wager face up on the layout.

(2) The dealer shall examine the cards of the player and select the five cards using the player's two cards and the five community cards to form the highest ranking five-card Poker hand. The wagers of each player shall be resolved one player at a time regardless of outcome. If a player's five-card Poker hand:

(i) Is ranked lower than the dealer's five-card Poker hand, the dealer shall immediately collect the Ante, Flop, Turn and River Wagers made by the player.

(ii) Is ranked higher than the dealer's five-card Poker hand, the dealer shall pay the Ante, Flop, Turn and River Wagers in accordance with the payout odds in § 647a.12 (relating to payout odds; payout limitation). The player's Ante Wager will be returned if the player's winning hand is not a straight or higher or a flush or higher as specified in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions).

(iii) Is equal in rank to the dealer's five-card hand, the dealer shall return the player's Ante, Flop, Turn and River Wagers.

(3) After settling a player's Ante, Flop, Turn and River Wagers, the dealer shall settle any Texas Hold 'Em Bonus Wager made by the player by determining whether the player's two cards qualify for a payout in accordance with § 647a.12(b).

(i) The dealer shall then settle the Progressive Payout Wager, if offered by the certificate holder. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand and be based on the rank of the player's two cards and the three-card Flop. If a player has won a progressive payout, the dealer shall:

(1) Verify that the hand is a winning hand.

- (2) Verify that the appropriate light on the progressive table game system has been illuminated.
- (3) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.
- (4) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 647a.12(d). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.
- (5) Pay any Envy Bonus won in accordance with § 647a.12(d). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Ultimate Texas Hold 'Em Poker table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one other player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.
- (j) The dealer shall settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. A winning Five Card Hand Bonus shall be paid irrespective of whether the player's hand outranks the dealer's hand and based on the rank of the player's or the dealer's two cards and the three-card Flop. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:
 - (1) Verify that the hand is a winning hand.
 - (2) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).
 - (3) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 647a.12(e). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.
- (k) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.
