(a) The Executive Director, with the approval of the Commission, may designate waters as being for the exclusive use of children or special populations, or

both, for the purpose of fishing. The designation is effective when the waters are so posted after publication of a notice of designation in the *Pennsylvania Bulletin*.

The sponsor also shall establish that the proposed exclusive area will be used year-round by showing that fishing tournaments/derbies, stocking or special events are planned throughout the year.

§ 65.25. Temporary changes to fishing regulations.

(a) Notwithstanding other provisions of this chapter requiring the advance approval of the Commission for designation or withdrawal of designation of waters as specially regulated areas, the Executive Director is hereby authorized to take immediate action to temporarily modify fishing regulations when he finds that modifications are necessary and appropriate for the protection, preservation and management of fish or fish habitat; to conserve and preserve fishing opportunities; or to provide for health and safety of persons who fish the waters. The Executive Director will cause temporary modifications to be posted in the vicinity of the regulated waters; and, when so posted, the modified regulations shall be effective. As soon as practicable after taking immediate action to temporarily

modify fishing regulations, the Executive Director will cause a notice of this action to be published in the *Pennsylvania Bulletin*.

(b) When the Executive Director takes immediate action to temporarily modify fishing regulations, he will notify the members of the Commission of the action and cause the matter to be placed on the agenda of the next regular or special meeting of the Commission. § 65.26. Extended trout season.

(a) *General rule.* The extended trout season is in effect from the day after Labor Day until the last day of February of the following year on stocked trout waters and all waters downstream of stocked trout waters. A creel limit of three trout per day and a minimum size limit of 7 inches apply during this season, except Class A wild trout streams where the creel limit is 0 and areas with special regulations.

(b) *Waters not stocked trout waters.* The Executive Director may grant a permit to apply extended trout regulations to waters that are not stocked trout waters upon written application of the owner or lessee of the lands on which the waters are located. Applications will be reviewed to ensure that applying extended trout season regulations to the waters in question is consistent with the best appropriate fisheries management of the waters in question, and to ensure that approval of the application will have no adverse effect on the preservation and expansion of public fishing opportunities within this Commonwealth. Approval or disapproval of applications shall be subject to review under Chapter 51, Subchapter E (relating to permit procedures). Permits for extended trout season on waters other than stocked trout waters will be valid until the last day of February of the 6th year after the year in which they are issued. For example, a permit issued in June 1984 will expire on February 28, 1990.
